

Horse for Adoption

Sophie is a wonderful 15' 3h 21yo TB mare that is in need of an adoptive home. She is a sensitive horse with a giving heart, who needs a kind and supportive owner. She is affectionate and sweet with good herd manners. Sophie has recently been ridden at a walk with a light rider and is being considered for hackamore work. Earlier this year Sophie had her right eye removed due to a localized cancer and has adapted well to the change. She is currently serving as an equine therapist with Flying Changes, an equine assisted activities program for at-risk teens and children. The program is going through some changes, but Sophie has an amazingly special spot in our heart so we are very committed to finding her the right home. Please let us know if you interested!!
